From the Bethel Town Office

Selectmen Adopt Long-Considered Traffic Ordinance Monday Evening

More than two years of safety studies, public hearings and legal reviews culminated Monday night in passage of a Traffic Ordinance by the Board of Selectmen. In a public hearing conducted before passage, the Board heard testimony on a request for posting a 25 mph speed limit versus 15 mph, on the lower end of Church Street, "yield" versus "stop" signs on each end of High Street and the advisability of delaying a ban on heavy trucking (over 18,000 GVW) on Main Street until the Lover's Lane bypass is brought up to acceptable road safety standards. After making appropriate modifications to the text, the Board unanimously passed the ordinance making it law.

It is simpler to state what this ordinance does not do: no sweeping new traffic flow designs will affect our Town. Instead, with the exception of establishing Park Street as one-way with entrance by the Congregational Church and egress by the Nazarene Church, existing traffic flow and parking patterns, speeds and directions are preserved as are present traffic rules and regulations. Most important is the fact that, as implemented, this ordinance will be a key ingredient in traffic safety enforcement, since, in the past judges have been reluctant to render judgements against traffic offenders. Citizens should be aware that provisions of this ordinance might require polishing as it undergoes the test of time. Comments and observations in this regard will be accepted by the Town Manager, the Town Office staff, or a Selectman and will be gratefully received and carefully reviewed.

Acting in a variety of other areas, the Board, after a public hearing on the subject, approved a victualer's and alcoholic beverage licenses for Brian and Sandra Strickland, the new owners of R.F.D. #1, formerly the Bethel Spa Restaurant. Four weapons permit applications were approved.

The B.E.A.R.S. president, Florence Merrill, and Arlene Greenleaf were present to hear the Manager read a letter to the Board.

from the B.E.A.R.S. requesting an Emergency Medical Service ordinance be drawn up to formally and legally codify working relations between the B.E.A.R.S. and the Town. In an Aug. 2 membership meeting, the B.E.A.R.S. voted unanimously to request such an ordinance. A B.E.A.R.S. ordinance, when approved by the Board, will close a large window of vulnerability involving liability that has threatened the B.E.A.R.S., the Town, ambulance personnel and patients. Without an ordinance a liability suit stemming from an unforeseen incident could have very serious negative repercussions for everyone, attendants and taxpayers alike. Acknowledging the many contributions the B.E.A.R.S. has made to our community, the Manager was directed to draft an ordinance in concert with the B.E.A.R.S. to present to the Board within 60 days.

In a related matter, the Board approved a B.E.A.R.S. request, viewed and recommended by the Radio Study Committee, to purchase three multi-channel transceivers that would increase response efficiency in outlying areas. The price will total \$2,100, half to be donated by the B.E.A.R.S. from their private fund and half will come from Town funds that will be reimbursed from a Highway Safety Project grant.

The Manager outlined for the Board the Community Safety and Law Enforcement Committee's plan to conduct a telephone survey to gather data on the community's police service needs. Acting in an advisory capacity to provide support to the Board as chartered, the Committee would systematically gather data for the Selectmen's future use in such areas as Bethel/County police relations, continued on Page Eight

MOTOR VEHICLE OFFICES TO STAY OPEN THURSDAY EVENINGS UNTIL 7:30

Secretary of State Rodney Quinn has announced that all 10 Motor Vehicle offices around the state will be open Thursday evenings on a permanent basis commencing Aug. 26. The evening openings, long a goal of Quinn's, were brought about specifically in response to the demand for the new picture licenses. Until this year all dealings with Motor Vehicle offices could be handled by mail, but now people receiving renewal drivers' licenses must go in person to a state facility. This works a hardship on people whose work hours coincide with the normal hours of State offices. During evening hours each office will be able to process on a limited basis other Motor Vehicle

functions such as automobile registrations, titling, etc., but people having these transactions are cautioned that there may be inconvenience and wait involved during the evening period when most activities will center around processing of new photo licenses. When licenses expire, individuals are notified directly from Augusta and a completed application form (data card) is enclosed, and people who want licenses are reminded to bring one form of identification on Page Eight

— From The Oxford Democrat —

Mr. Woodman Gerlach met with a singular accident, Tuesday, at Skillingham pool factory. Reaching his hand forward before the bit for hitting the spools, his sleeve caught on the bit, and in a twinkling he lay on his back, his arm, making a nice hole in drawing his arm away it was bent and broken nearly off, but protruded on both sides of his waist. It was found the bit had bored directly through the principal bone of his arm. It was done about as quick as a bullet would to it, but without any fracture whatever.

Mrs. William Macomber fell backward down the cellar stairs while at a neighbors, and injured her quite seriously.

Miss Jackson of Norway, closed her second term of school on Gower Hill last week. She has proved a very successful teacher, as attested by the progress of her pupils.

August 11, 1882

Hay comes in much better than usually expected, and of nearly double the value of last year. Other crops look splendidly.

Sunday School Concert was held in Congregational Church last Sunday, and was very interesting.

September 1, 1882

The Mountaineer says: Wheat and corn are excellent. We harvested this week, on 90 square rods, 180 bushels of nice wheat, at the rate of \$15 bushels to the acre, and on 70 rods, 25 bushels of oats, at the rate of \$5 bushels to the acre. Potatoes will be a fair crop and of good quality. The farming factory have ready a quarter of a million cans, made ready for use. The crop is promising. Our Common is now promising.

Letters to the Editor

To the Editor:

My wife was broken into and a tape deck stolen. I called the Sheriff's Department and insurance company. The insurance company asked me to have a lawyer. I feel lost at the auto and see the cut wires to verify the 8 track tape deck to be stolen.

Three calls, two direct requests, and three weeks later, no officer has been near; not too small an item?

We pay tax dollars for police protection and law enforcement, but what we seem to get is laws with no one to enforce them, and no protection. This is my second letter. I now you know that this is not the way you should handle this. I know you'll never get caught in Bethel. We paid for cops, men and uniforms, what we've got is uniforms and no men. Take their radios, I bet they'd get angry.

A Displeased Taxpayer

Aug. 20, 1982

To the Editor:

Too often we underestimate Bethel's importance. How many times have you heard the expression, "Bethel doesn't have anything to offer there's nothing to do here?"

Last week, in an article about President Reagan's campaign to move a \$86 billion tax bill through the House of Representatives, "Time" magazine reported that the President "sent letters to some 500 business leaders across the nation, seeking their support."

Considering that there are 50 states, that means only 100 per state, yet at least one of those letters came to Bethel to the chamber of commerce.

Therefore, I thought that the people who live in the Bethel area would like to know you don't always have to be big to be noticed. At the same time, I think those who support our local chamber, our association is staying in there, even if it is in the balance.

UNITED METHODIST WOMEN

TOGETHER WE SERVE

The United Methodist Women will hold their meeting Sept. 9, at 1:30 p. m. in the Church annex.

The guest speaker will be Mrs. Susan Farmer. Her topic will be "Retirement and New Horizons." Hostesses for the afternoon will be: Edna Parsons and Muriel Faudt.

Finely lighted up on dark nights by street lamps. In our notice of the Lawn Festival last week, we omitted the fine readings of Dr. Win. Gray and Miss Needham of Andover, Mass. The audience were surprised to find that the doctor is an accomplished reader.

PLEASANT VALLEY BIBLE CHURCH

Sunday, Missionaries Tom and Nancy Brink from New Hampshire were special guests at the Pleasant Valley Bible Church.

Their singing and guitar accompaniment was much enjoyed. Mrs. Brink thanked the ladies for the gift of their new baby boy born last May.

Pastor Bert Griffith's message was from John 1:5. Elder Stanley Jones was reported ill.

Cleve and Cathryn Lovejoy were at the organ and piano to play for hymns.

Sunday evening a film was shown entitled "JANA and a New Beginning." It is a story of a woman who grew up in this church or who have expressed interest in its work.

Please bring your own lunch. Snuggles will be provided by the church.

FLYNN - DESJARDIN

Baskets of gladoli decorated the altar at St. Joseph's Church in Lewiston when the Rev. Jacques Desjardin became the bride of Miss Betty Marie Flynn.

The wedding ceremony took place July 10 at 12 noon with Rev. Stephen F. Conannon performing the double-ring service. Readings and altar readings were done by Miss and Mrs. Desjardin, brothers of the bride.

Mrs. Flynn is the daughter of Mr. and Mrs. Ronald C. Desjardin of Central Avenue in Lewiston. Her husband is the son of Mr. and Mrs. Brian Flynn, Jr., of Portland.

Escorted to the altar by her parents and two brothers, the bride wore a white gown of applied lace designed with fitted bodice, long sleeves and a full skirt. The bride's hair was styled in a chignon. A wreath of white flowers and baby's breath held her cathedral length veil in place. A graduate of Edward Little High School and Westbrook College, Mrs. Flynn is employed as a medical secretary for Dr. Robert A. Sylvester.

Mrs. Flynn attended Telstar Regional High School and is a 1978 graduate of Edward Little High School and received her degree from Bates College this year. He is currently employed at Bates College.

The bride and groom were accompanied by a procession of bridesmaids and bridesmaids. The bridesmaids included four sisters of the bride, the Misses Kelly, Kana, Michelle and Amy Flynn, and a friend of the bride, Miss Shelley Roy.

The attendants were attired in green organza floor-length gowns with off-the-shoulder ruffles and cashed veils. They carried white baskets overflowing with white flowers.

Summer is going away before we have had a chance to enjoy all its glories. The fall aster has started to blossom and when that starts I always feel like summer has had its season. It has been a busy and rewarding summer as with the boys home on leave we did a lot of those jobs one never seems to get around to. How much a crew can do! Robert and Linda Howe have their home painted and new steel roofing. John Labban's son, Christopher, is painting his barn and the town has put in a much larger culvert by Aylwards. Newlyweds Mr. and Mrs. Harry Stevens have moved into Thurston's place so the neighborhood has been changing. The cement has been poured for the basement at Douglass' lot. Mr. and Mrs. Bill Williams had a neighborhood get-together which was enjoyed by all who attended.

This Sunday just past Ben Gordon of New York had an outdoor get-together and cookout. Mr. and Mrs. Charles Mason helped as well as others. Scott Mason had charge of cooking the hamburgers and hot dogs. The salads, corn, desserts and other goodies were on a serve yourself basis and the beautiful day (a little on chilly side) offered us a beautiful view as his camp is about a mile up the mountain. Others attending: Mr. and Mrs. Frank Gibson and George, Mr. and Mrs. Joe Shimamura, Leslie Lapham, Mr. and Mrs. Frank Aylward, Chuckie, Kathie Mason and three children, Mr. and Mrs. Roland Glines, Mr. and Mrs. Steve Anderson and two boys and Melinda Mason, Lori, Joseph and Rita Collingwood, Sunday River, Mr. and Mrs. Earl C. Merrill, Herb and June Lyons and relatives, Bryant Pond, Scott Mason's wife, Rocky, and two children, Pat Murphy, Bob and Betty Mills, Harlan and Gertrude Hutchins, Betty Blake, Sandy Plawlock, Bethel, Bud, Leah, Dannel, Keith and Kathie Bishop, Bucksport, Tom Murphy, Key West, Fla., and friend, Ray Ann Pease, also of Florida, David, Brenda Mason and two children, Florice Williams, West Paris, and Cliff Foster, Oxford. We hope we got every one present. Ben Gordon left Tuesday to return to his bakery in New York.

Saturday the Charles Mason Jr.s worked on Murphy's horse show at Pat Murphy's.

Bob and Joyce Stearns both had vacations the first two weeks in August. They spent one week at Small Point where they were visited by their daughter, Debbie Seames and three children for three days and two nights. Bob, Joyce, Debbie and three children went to Benson's Animal Farm where they saw seal acts, parrot acts, Dawn and Ryan had a ride on the elephant and all went on a hay ride.

Mr. and Mrs. Bill Williams had Mary Shaw over for cake and ice cream on Mary's birthday and also Dolores' uncle, Henry Lane, the same day. Sunday the Williams had Dick, Louise and Betty Waterhouse of Mexico as callers.

Mrs. Diantha Smith from New Hampshire picked up Andy Smith and Randy Wilson of New Vineyard at Homer Smith Jr.'s the 18th and the boys came back Saturday with Kerry, Diantha, and Danny Smith for the Smith reunion held at Randy Mills and family in West Bethel. Larry Smith and Sally Chase, North Conway, N. H., who also attended, spent Saturday night with his father and mother, Homer and Edie Smith. Homer and Edie also attended the reunion.

Edith Smith took her sons, Bruce and Andy, grandsons, Matthew and Mike, to Lewiston Aug. 10 and then drove to New Vineyard to leave Andy at Randy Wilson's home. Mrs. Wilson brought the boys back on Aug. 17 and picked up Randy, Sunday.

ships, police responsiveness, investigations, etc. The phone survey will be conducted in September.

In other matters, the Board approved bid specifications to dig a new trench along the western border of the landfill to be completed by Dec. 1. Preference will be given to bidders who offer proposals depicting the most efficient methods for opening the new trench. However, this should be viewed not as a solid disposal solution, but only as a way to "buy time" for about a year while other alternatives can be studied and arranged.

Acting on the last agenda item of the meeting, the Board voted to hold a public hearing at the next Selectmen's meeting scheduled for Sept. 13 in the Bethel Savings Bank meeting room for the purpose of taking citizen comments on a proposed cable TV ordinance before considering enactment. (See Public Notice, page 2). As was the case with the Traffic Ordinance, Title 30 MRSA paragraph 2151 (3H) permits the Board of Selectmen to adopt ordinances establishing the framework of rules to be followed in cases where the public ways are used for the purpose of installing TV cables and wires.

STATE POLICE REMIND MOPED OWNERS OF PROPER OPERATION

The state police remind moped owners of the proper operation of mopeds on Maine roads.

"With the increase of moped use at this time of year, it is imperative for safety's sake that moped owners and other motorists are aware of the requirements for proper moped operations," said Colonel Allan H. Weeks, chief of the Maine State Police.

To operate a moped, a person must have a valid operator's license of any class (but cannot operate on a permit). The moped, registered for a \$5 fee, must be operated to the far right except to make a left turn, be operated in single file only, and have the headlight on at all times. A moped must not be operated on an Interstate highway. Also, a moped must be inspected once each year at either a motorcycle or motor vehicle inspection station.

The state police Traffic & Safety Division advises of the items that must be included in the annual moped inspection: single or multiple beam headlight, brakes, horn, rear view mirror, exhaust system, taillight, rear plate light, speedometer, and odometer.

The Week in Washington

by Sen. George J. Mitchell

The declining numbers of North Atlantic Salmon returning to Maine's waterways to spawn has been a cause of real concern in the state for decades. Efforts to reverse the serious damage to our rivers caused by pollution have been hailed as a major step in reversing that decline.

But successful though they have been, our efforts to clean the waters which support spawning salmon populations have resolved only part of the problem. Overharvesting of salmon on the high seas has been recognized as early as the mid 19th century as a serious threat to the survival of the species. In fact, British author Charles Dickens, recognizing the threat to the species, wrote in 1861 that "A few years, a little more overpopulation, a few more tons of factory poisons, a few fresh poaching devices...and the salmon will be gone...he will become extinct."

Interest in the preservation and restoration of the Atlantic Salmon has grown enormously. Thanks to the concerted efforts of various organizations both in and out of Maine, we have begun to learn more about the Atlantic Salmon, and its habits, and what we must do to prevent its disappearance.

Until the mid-1960's, neither Americans nor Europeans were aware that Atlantic Salmon, native to the rivers of Maine and New England and Europe, had a common feeding ground in the Davis Strait off Greenland. Once this salmon-rich area was discovered, an intensive high-seas gill net fishery was developed by the Danes and Norwegians. This commercial fishing venture quickly got out of hand. We in Maine saw the results of this uncontrolled harvesting, with a significant decline of salmon returning to our rivers.

Although Denmark bowed to international pressure and agreed to phase out its high-seas fishing of Atlantic Salmon, there is now no formal mechanism in existence to effectively control, manage and conserve the Atlantic Salmon.

For three years, the United States negotiated with other nations which border on the North Atlantic, to devise an international treaty to prevent the overharvesting of Atlantic Salmon.

The treaty is now before the Senate for ratification. I fully expect positive action in the very near future.

This treaty will augment Maine's salmon restoration efforts and will insure a return to healthy salmon populations in Maine's rivers. Maine now has substantial salmon runs on eight major waterways: the Union, Narragansett, Denny, Machias, East Machias, Pleasant, Sheepscot, and Penobscot Rivers.

A further need is to insure the maintenance of healthy salmon populations is the removal of the threat of acid rain. Increased acidity in Maine's waterways poses a serious threat to young salmon. The Senate Environment and Public Works Committee last week recommended that the Senate pass the Clean Air Act reauthorization bill, which includes my amendment to attack the causes of acid rain — sulfur dioxide emissions from fossil fuel-burning utilities and industries.

These efforts are important and necessary, because we want to insure that Maine's anglers, their sons and daughters, their grandchildren and generations to come will have the opportunity to enjoy, marvel at, and wisely harvest this magnificent fish.

BETHEL HAS A NEW PHARMACIST

The new face at Prim's Pharmacy is that of David J. Preble. Charles Primozich, owner of the store and owner-operator of the South Paris store has announced that David is the pharmacist for the Bethel store replacing Sherry Barr who has moved to Indiana.

David is a 1977 graduate of Oxford Hills High School, and completed his degree requirements with honors from the University of Rhode Island in 1982. He is a native of South Paris, is single, and is presently entering into partnership with Chuck.

"Having worked in the South Paris store for the past three years, I am very familiar with the working of the business," David said.

Speaking of customers, he said, "It has always been my philosophy that the customer comes first. The patient has the right to know everything about the medication he or she is taking and I will be more than willing to answer any questions about any prescription. My best interest is in the patient and if something doesn't click right with a prescription, I will be most happy to contact the doctor and attempt to clear things up."

During off hours, David enjoys all outdoor activities. He is committed to staying in the area because of its offerings for his professional and personal goals.
